

Designation for Rotation and Discharge:

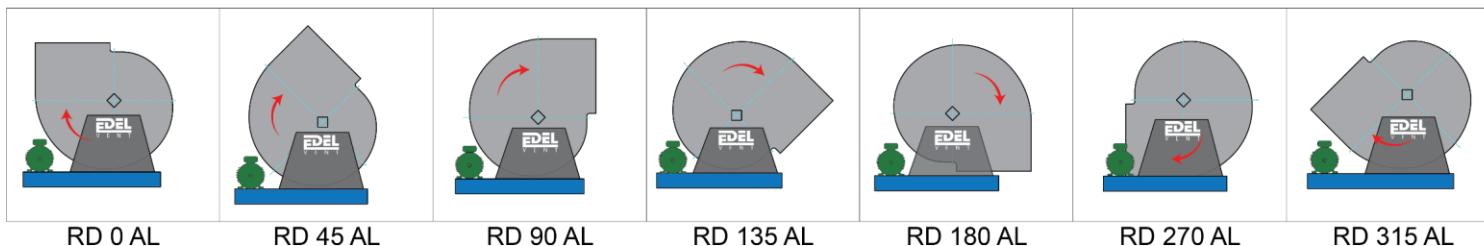

RD 0 RD 45 RD 90 RD 135 RD 180 RD 270 RD 315

LG 0 LG 45 LG 90 LG 135 LG 180 LG 270 LG 315

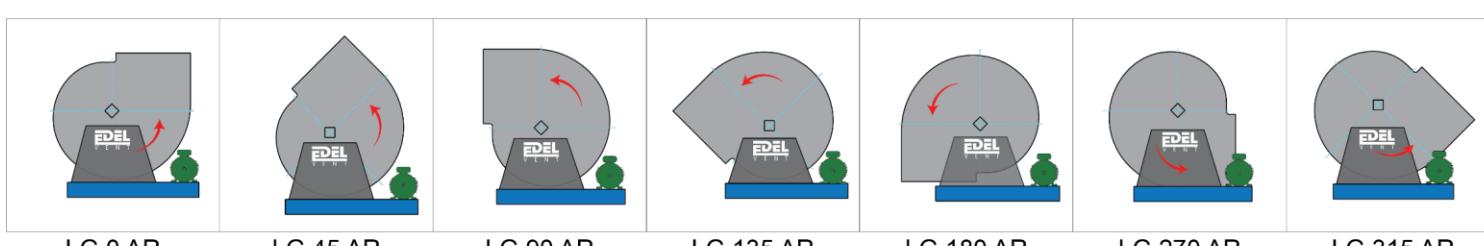

RD 0 AR RD 45 AR RD 90 AR RD 135 AR RD 180 AR RD 270 AR RD 315 AR

RD 0 AL RD 45 AL RD 90 AL RD 135 AL RD 180 AL RD 270 AL RD 315 AL

LG 0 AL LG 45 AL LG 90 AL LG 135 AL LG 180 AL LG 270 AL LG 315 AL

LG 0 AR LG 45 AR LG 90 AR LG 135 AR LG 180 AR LG 270 AR LG 315 AR

IMPORTANT NOTES:

○ Direction of rotation

Direction of rotation fan is always from side of drive:

RD ► right-handed („clockwise rotation“ / CW)

LG ► left-handed („counterclockwise rotation“ / CCW)

○ Housing position

Housing position defines the outlet direction of the fan:

0° → vertical upward

90° → horizontal (upside of fan)

180° → vertical downward

270° → horizontal (down of fan)

○ Motor position

Motor position defines a position of drive-motor:

AL → Drive-Motor to the left of fan housing

AR → Drive-Motor to the right of fan housing
